# SimaPro Expert user package

SimaPro Expert user package is designed for the LCA expert who needs powerful modelling and assessment features. This version includes a SimaPro Analyst license and allows you to model detailed LCA studies, with advanced analytical features such as process and project parameters and Monte Carlo analysis. Import and export your data in different formats. Visit simapro.com to compare different packages.

Scenarios with parameters

Build scenarios with process and project parameters. Using these parameters in your model simplifies your work and gives you the flexibility to easily change values or assumptions in your model.

Advanced modelling

The Expert user package supports advanced modelling with process and project parameters, scenario analysis and uncertainty calculation with Monte Carlo simulation. Furthermore, you can gain insight into unit processes and the allocation of multiple output processes, conduct a weak-point analysis and model complex waste treatment systems.

Multi-user option

SimaPro's multi-user feature is unique among LCA software solutions. It allows multiple people to work on the same project simultaneously, in one shared central database. Collaborate with your colleagues in real time, even when they are working in different offices or even different countries.

All add-ons in one package

Collect

Optimized data collection

Optimize data collection from stakeholders and suppliers and monitor your data collection progress. SimaPro Collect has a user-friendly dashboard that contains standard survey templates, that are easy to fill out. Expert users can also customize the templates to create new surveys. Everything is accessible in one web-based platform, which makes it easy to track the status of your survey.

Share

Create and share scenarios

Create product scenarios and share them with anyone you want, even if they don't have access to SimaPro. SimaPro Share allows to interactively evaluate 'what if' scenarios and experience the impact of their decisions first-hand. This streamlines business applications such as product design, EPDs and ISO-compliant studies. You'll no longer have to recalculate results for each question, and you help ensure that your sustainability insights will be used to drive change.

Report

Create graphs and tables

Save time on creating LCA reports. With Report Maker, you can create graphs and tables in MS Word and MS Excel, and they will be automatically updated as you change your model and data in SimaPro. You can also use Report Maker in combination with the 'Import Scenarios' feature which can help to generate the data for your Environmental Product Declarations (EPDs) or other recurring reports.

Created for the users who need powerful modelling and analysis features

SimaPro

Robust, flexible and transparent LCA

- Advanced product life cycle modelling with product stages
- Wide range of impact assessment methods
- Inventory and Input/output databases
- Interactive results analysis on graphs and tables
- Analysis of groups
- Save inventory data as system processes

- Library switch
- Interactive network view
- Import data (.csv and SimaPro format)
- Export data (.xls and .txt format)
- Export data (.csv and SimaPro format)
- Import and export of EcoSpold 1 data
- Export of ILCD Data
- Edit system descriptions

- Interactive tree view
- Parameters (scenario analysis)
- Monte Carlo analysis
- Export to matrix
- Copy chart to Excel
- Multi-user version with shared database, incl. user management

Collect

Optimized data collection

- Create, view and track surveys
- Send customized invites to survey respondents
- Respond to surveys
- Download survey results as .csv

Share

Sharing scenarios with anyone

- Build scenarios
- Calculate and analyze impact assessment
- View, vary and compare ready-made scenarios
- Carry out contribution analysis
- Create hotspots
- Share results with non-SimaPro users

Report

Reports and data visualization in MS Office

- Automatic update of SimaPro linked graphs and tables in Word and Excel

SimaPro

Experience the full potential of SimaPro

This package is available as a one year subscription or as a perpetual license. It includes a free one-year service contract, and you can buy additional years of service. The prices include ecoinvent v3 database license. If you want to have a license without ecoinvent database, please contact us for a quote.

Expert user license		First user	Extra user
Perpetual license		€ 11,500	€ 8,645
Subscription (12 months)		€ 5,500	€ 4,500

Service contract*			
1st year		free	free
1st + 2nd year	-5% discount	€ 2,138	€ 1,140
1st + 2nd +3rd year	-10% discount	€ 4,050	€ 2,160

* prices are only valid during your initial SimaPro order

Pricing conditions
- Prices are valid until September 30, 2020.
- Read and accept the license agreements for SimaPro, ecoinvent and Agri-footprint before you order.
- Prices for multiple users are available on request.
- If you want to upgrade to another SimaPro license, please contact your reseller for a tailored quote.
- The price for a new SimaPro license includes an ecoinvent v3 database license and a free one-year service contract.
- Order additional years of service contract with your initial SimaPro order to profit from a discount up to 10%. This discount does not apply if you want to renew your service contract later on.
- If you want to add extra users to your existing license, the service contract end-date of the existing contract will apply.
